ABSTRACT

The Council of Educational Facility Planners, International has published a directory to serve as a resource to school districts, colleges and universities, and others who seek professional assistance in some phase of educational facility work. The directory is organized into the following two sections: a list of firms by region and specialization; and an alphabetical listing of each firm including a personal statement reflecting the firm's philosophy, experience, and approach to educational facility projects, and a description of their areas of specialization. An index of company names is included. (GR)

CEFPI 1998 Consultants Directory

THE COUNCIL OF EDUCATIONAL FACILITY PLANNERS INTERNATIONAL

BEST COPY AVAILABLE

CEFPI 1998 Consultants Directory

The **CEFPI Consultants Directory** is designed to serve as a resource to school districts, colleges and universities, individuals and others seeking professional assistance in some phase of educational facility work.

The 1998 edition of the **CEFPI Consultants Directory** is organized into two sections. The first section of the directory is a listing of firms by region and specialization. The second section of the directory is an alphabetical listing of each firm including a personal statement reflecting the firm's philosophy, experience and approach to educational facility projects, and a description of their areas of specialization.

As a part of our advocacy goal, it is the Council's intent to assist its members listed in the directory in marketing their services to agencies involved in educational facility related work. Our listing of firms and individuals who provide consulting services is not an endorsement of their work qualifications, but a compilation of CEFPI members who have paid a listing fee to be included in the directory. The directory will be distributed to all CEFPI members and others contacting CEFPI Headquarters in search of facility related resources.

Inquiries regarding the CEFPI Consultants Directory should be sent to:

3D/International

Areas of Specialization

For over 40 years, 3D/International has provided multi-disciplinary professional services in program management, construction management, architecture, engineering and environmental consulting. 3D/I was one of the pioneering firms to identify and practice construction and program management as a professional service. Services for educational clients often include facility condition assessments and pre-bond referendum planning.

Personal Statement

3DI's program and construction management experience for public agencies exceeds $7 billion within the last three years. Currently, more than half of our program and construction management work is for educational clients. We have provided services for over 40 public school districts and over 20 colleges and universities. Our approach is to provide flexible services to assist control of the time, cost and agreements of our clients' projects and meet the educational quality requirements of each district.

Burr Lawrence Rising + Bates Architects, P.S.

Areas of Specialization

BLR+B Architects provides architecture, planning and interior services to clients throughout the State of Washington and Pacific Northwest. Our firm is noted regionally, nationally, and internationally for excellence in educational facility design. BLR+B has served a long list of satisfied educational clients, most of which are repeat clients. With more than 500 educational projects in our portfolio, we bring to our clients a vast amount of experience and extensive track record in school design. BLR+B has received 69 national, regional and local design awards from the educational community for excellence in educational facility design.

Personal Statement

AT BLR+B the practice of architecture is a collaborative process. Quality architecture can only be obtained when the client is meaningfully engaged in the design process. We have a commitment to contextual design. Each facility is unique and must reflect the local community's cultural and social values. BLR+B also has a moral commitment to energy-conscious design. Finally, Burr Lawrence Rising + Bates Architects strives to develop a human quality in our buildings. Scale, quality of space, texture, form and color are critical design factors!

CRSS Constructors, Inc.

Areas of Specialization

CRSS Constructors, Inc., manages capital programs and projects for educational clients from our offices located in 9 major cities nationwide. Since 1968, we have provided full-service program management and construction management for educational facilities programs with a total construction value exceeding $2.5 billion. We strive for unequaled solutions in:

- Facilities assessment
- Strategic planning
- Master planning
- Program management
- Construction management
- Project management

Personal Statement

CRSS Constructors applies world-class management expertise and hands-on construction experience to educational programs and projects. With our roots in architecture and our hard-dollar construction knowledge, we bridge the gap between architects and contractors. Our responsive, results-oriented professionals get the job done. We encourage out-of-the-box, solutions-oriented thinking and use of leading-edge technical resources for program management, construction management, and project management assignments.

DeJong & Associates, Inc.

Areas of Specialization

DeJong & Associates, Inc. [DJA] specializes in providing direct service to educational organizations. DJA positions individuals and organizations to help share their futures. It is organized to conduct consulting and technical assistance services in the fields of educational planning. The professional services offered by DJA include: facility planning, strategic planning, community involvement, program & design requirements [educational specifications], and technology planning.

Personal Statement

At DeJong & Associates, Inc., we keep an eye to the future. We want school districts and other educational organizations to make their futures happen in ways conducive to their individual needs. We believe it is our job to assist in the decision-making process, not simply tell our clients what we think they should do. Teamwork and consensus-building are very important to our planning strategies. Decisions are made based on the values of the district, not those of DeJong & Associates, Inc.

Name of Firm:	DeJong & Associates, Inc.
Contact Person(s):	William DeJong Charles Warner
Address:	5186 Blazer Parkway Dublin, OH 43017

33

Design Group Inc.

Areas of Specialization

A spectrum of services is offered to our clients, which ranges from dream to realization. The foundation pieces include:

- Planning: strategic, technology, and master
- Programming: conceptual design, education specifications, costing
- Financial support: bond issue campaigns and alternative sources of funding.
- Design: architectural, landscape and interior
- Construction: construction documents, site supervision, cost control
- Post occupancy: equipment coordination, faculty training on new equipment and technologies, staff development for maintaining new equipment, finishes etc.

Personal Statement

Education is the foundation upon which America's future will be built. DGI's commitment to education is one of creating spaces that maximize teaching and learning. A veteran educator of 33 years leads our client's education planning efforts. Educator to educator dialogue is the fundamental concept that drives our education planning process. The result: clients make great decisions. Our spaces, both renovated and new, are schoolhouses whose doors open onto the world.

Name of Firm:	Design Group, Inc. – Architects and Planners
Contact Person(s):	William K. Northrup, Director of Educational Services
Address:	7600 Olentangy River Road Columbus, OH 43235

The Design Partnership of Cambridge, Inc.

Areas of Specialization

We specialize in planning and design for public schools, both renovations and additions and new construction. We provide full pre-design services (master planning; feasibility studies; existing condition surveys; site selection, evaluation & analysis; site planning; space analyses) as well as complete architectural and construction administration services.

Personal Statement

Our approach combines a high level of creativity, design sensitivity, and attention to detail with a strong, practical approach to problem solving. We listen to our clients, work hard to determine what is truly needed, and explore alternative designs and solutions so that the completed building is a distinguished project which completely satisfies the needs of the users, both practically and aesthetically. We avoid a rigid design philosophy and we are flexible. In particular, our approach to planning and programming depends heavily on involvement by the users.

Name of Firm: The Design Partnership of Cambridge, Inc.

Educational Systems Planning

Areas of Specialization

Educational Systems Planning provides technology utilization planning, facilities planning for technology, communications infrastructure network design, and installation management to architects, school districts, and colleges. ESP staff have extensive experience in the design/development of district-wide or school specific technology plans; computer and science labs, media centers; and data and voice, video data school-wide and WAN networks.

Personal Statement

Educational Systems Planning's major strength is the direct experience and background of ESP consultants in design and implementation of instructional and administrative applications of technology. Implementing technology in schools and Colleges is ESP's only business - we are educators, technologists, and implementation managers. Over the past 10 years, ESP has successfully provided vendor independent, technology services to numerous school districts and colleges around the country.

Name of Firm:	Educational Systems Planning

Ehrenkrantz Eckstut & Kuhn Architects PC

Areas of Specialization

Our mission at Ehrenkrantz, Eckstut & Kuhn Architects (EE&K) is to practice architecture that reflects the highest ideals of our clients and the communities in which we work. Established in 1959, our firm has offices in New York, Washington DC and Los Angeles providing unsurpassed expertise in a wide range of services, including architecture, planning, historic preservation and interiors.

Personal Statement

EE&K's approach to educational design addresses contemporary issues facing urban schools and offers appropriate architectural responses. Our aim is to provide the best service, quality and performance possible to our clients. EE&K minimizes building costs and maximizes operational efficiency by providing feasible solutions. An awareness of maintenance costs and the need to continually update, as well as an extensive knowledge of state-of-the-art technology, allows us to design flexible environments. The promotion of long-term success and productivity is inherent in our design process. EE&K prides itself on the ability to listen, establishing working relationships that are based on clear communication, cooperation, consensus and daily client contact. Our process of Analysis, Options and Design is founded on exploration and collaboration with the client.

Facility Evaluation Group, *A Division of 3D/International*

Areas of Specialization

3D/International's Facility Evaluation Group (FEG) performs total facility evaluations that include all aspects of facility construction and capital renewal. We provide assessment inspections of civil, structural, mechanical, plumbing, and electrical systems as well as related costing, programming and space inventory services. We also provide functional suitability services, prioritization of needs, environmental assessments, and community outreach services.

Personal Statement

The FEG was purposely formed as a separate entity within 3D/I to meet the specific needs of our educational client base. The group's mandate is to provide convincing, factual information to help our clients plan renewal programs. In fact, our primary objective is to submit a "bullet proof" presentation of the facts to our clients, assisting administration boards and facility planners with the maintenance and capital renewal of their educational facilities.

Franklin Hill & Associates

Areas of Specialization

FH&A provides educational facility planning for K-12 schools, colleges, and corporations. Services include educational specifications, district master planning, planning for remodeling, value engineering, design plan review, and futures workshops on change. We provide sensitive facilitation of community involvement, consensus building, and technology awareness. Our 200 school projects have a history of practical, cost-effective planning which is based upon local needs and conditions. Selected projects include the K-12 Celebration School, the pilot middle school for Nova Scotia, and Kaixxen corporate learning centers.

Personal Statement

We believe facility planning can be a helpful tool to examine educational change and make properly guided decisions based on local need. We see facility planning as a people process that builds upon local success while planning cost-effectively and flexibly for the future. Collaboration and cooperation around a common vision are the cornerstone of our planning process. Dr. Hill has been a teacher/administrator, qualified in urban planning, a 100,000-pupil facilities manager, and VP in both an architectural and CPM firm.

Gilbane

Areas of Specialization

Gilbane specializes in program and construction management for educational clients. Assignments have included renovations, additions and new construction for K-12 schools and colleges and universities including research and laboratory buildings, technology centers, libraries, athletic complexes, dormitories and student centers, classrooms, auditoriums and theaters, and outsourcing facilities management assignments.

Personal Statement

Gilbane successfully manages educational projects by focusing on issues of concern to clients. For some it's developing - and meeting - reliable budgets, promoting safety throughout the project or minimizing disruption to school schedules. For others it's gaining public and political support or choosing among alternative financing strategies. Perhaps the concern is implementing the right technology or managing multiple projects simultaneously. Whatever the issue, Gilbane delivers solutions that result in successful projects.

GMB Architects-Engineers

Areas of Specialization

Architecture, Engineering, Interior Design, Site Planning, Technology, Facility Analysis, Master Planning.

Personal Statement

Our philosophy as related to educational projects is simple: listen carefully to the tax payers and the staff; understand the curriculum and delivery methods; and remember, above all, that any project is about the kids. Our approach is one of discovery. We enter our projects with open minds; no pre-conceived solutions. With many years of school design to our credit, GMB understands the process of working with various committees and community groups. After thorough investigation and collaboration, a solution is presented.

Hayes Large Architects

Areas of Specialization

One of the leading educational facility planning and design firms in the northeastern United States, Hayes Large Architects has provided planning and design services for nearly 3,000 individual educational projects. From its offices in Altoona, Harrisburg, Pittsburgh and State College, Pennsylvania, the firm offers a broad spectrum of services including programming, facility planning, master planning, architecture, landscape architecture, interior design, equipment planning and structural engineering. With a staff of nearly 120 professionals Hayes Large Architects continues its commitment to innovation, providing distinctive design expertise for new construction and renovations, adaptive-reuse and historic renovation projects.

Hayes Large Architects has developed the resources of an educational planning group, referred to as the EdVise (Educational Advice), composed of experts from diverse educational fields. EdVise allows Hayes Large to provide a flexible, cost effective access to practitioners and experts on the cutting edge of education. We understand the need to stay current and to look to the future.

Personal Statement

Our design approach is a delicate balance between pursuing the ideal, while being tempered by economy. We design for the end users, with substantial client participation. Our designs have a strong foundation in function, but enhanced through the vision of the client. We strive for a classic 'timeliness' in each of our designs.

Horst Terrill & Karst Architects, P.A.

Areas of Specialization

HTK specializes in educational programming and design from Early Childhood education through Post Secondary Education. These types of facilities include new facilities, additions and renovations. HTK is dedicated to design excellence in meeting the needs of the client with functional solutions with attention to creating 'People Place' environments.

Personal Statement

Before we do the planning, the design, or the sketching, we do one thing that is more important...WE LISTEN! The programming and design phase of a building proposal is very important because it is crucial that needs of the client and end users are addressed. We, therefore, perform this phase of work on-site during intensive 'Squatters Sessions'. These sessions are designed to review and identify the needs of the client via input from the administration, staff, students, community groups and organizations.

Name of Firm: Horst Terrill & Karst Architects, P.A.

Contact Person(s): Gary G. Karst, AIA
Mark E. Franzen, AIA

HVAC-Facilities Maintenance Consultants

Areas of Specialization

- HVAC Commissioning 'The Total Process' Service
- HVAC Test Balance Services
- HVAC Systems Evaluation & Needs Assessments including all (MEP)
- HVAC Systems Retrofit Management Services
- Indoor Air Quality Evaluation & Proactive Development Programs
- HVAC Preventive Maintenance Evaluation & 5 Year Program
- Environmental Control System & Bldg.Automation System Evaluation
- Housekeeping, Building/Grounds Evalaution & Improvement Services
- Plus 10 Additional Independent Consulting Services Designed for Universities, Junior Colleges, Public, & Private Schools Districts

Personal Statement

In recent years, most new Schools have been equipped with increasingly sophisticated HVAC Systems, energy conservation Equipment, Lighting & Security Systems, and Environmental control devices that rely on Electronic control. Very frequently these systems & design features have not performed as expected. This can result in energy-efficiency losses, occupant complaints about comfort, IAQ problems, high operating costs and increased liability for School Districts, Operators, Employers and Design Professionals. Our HVAC Commissioning 'The Total Process' programs will respond to these concerns and eliminate problems before they start.

JGA Architects-Engineers-Planners

Areas of Specialization

JGA Architects-Engineers-Planners is located in Billings, MT, and Powell, WY, and has specialized in educational facility development since 1968. We have completed projects for elementary through post-secondary facilities. JGA offers clients a full range of services from campus master planning to building commissioning. In addition to traditional design services, we also provide our clients assistance with issues, such as technology planning and implementation, space utilization and capacity analysis, community workshops and promotion, educational needs assesments, and facility evaluations.

Personal Statement

JGA is built upon the contributions and talents of an experienced, enthusiastic, and diverse team of professionals. We are architects, engineers, and planners by training; creative problem solvers by nature. This combination of skill and creativity has produced award-winning facilities and a mission to exceed our clients' expectations. JGA continually strives to be our clients' single point of contact for all of their facility needs, allowing them to concentrate on their primary mission - educating students.

PC Associates

Areas of Specialization

PC Associates is in the Change Order Prevention business. Our methodology—RemedyChecking®—is a highly effective approach to reviewing construction documents with an independent pre-construction interdisciplinary coordination and constructibility plan review. It is very different from the type of review provided by Construction Managers or A/E firms.

Personal Statement

We at PC Associates view ourselves as proofreaders of plans--similar to how authors have editors. It takes special people thinking in 3-D and understanding several disciplines. We do one thing—RemedyChecking®—and do it very well! The average benefit/cost ratio for past projects is 27:1. Can others say that?

Name of Firm: PC Associates, the Plan Check People

Contact Person(s): Michelle Pettit, AIA, President
Julie Barrett, Director of Business Development

Address: 145 W. Main Street, Suite 200
Tustin, CA 92780

Phone/Fax: (714) 730-0933, (714) 730-1894

E-mail: michelle@pcassoc.com julie@pcassoc.com

Perkins & Will

Areas of Specialization

Recognized as a leader in school planning and design, the Perkins & Will Education Group operates with six offices located throughout the United States. Our educational group includes many of the most experienced and creative education architects, engineers and planners in the country. The education practice thrives today with continued dedication to innovative and cost-effective solutions for the creation of new school buildings and the renovation of existing facilities.

Personal Statement

Our goal and commitment is to provide clients with the most cost effective and innovative solutions by means of the highest quality planning, design, engineering, master planning, and interior design services. Our ongoing interest is to creatively address current and future facility needs within the framework of an ever changing global society.

Planning Advocates, Inc.

Areas of Specialization

A sample of our professional services includes: strategic planning; comprehensive educational facility surveys and studies; demographic data development; enrollment projections/futures forecasting; short and long-term technical assistance in planning, maintenance and operations; adequacy evaluations of facilities; preparation of educational specifications; plan reviews; facilitation of community planning; and expert court testimony.

Personal Statement

We think our name is indicative of our philosophy: the 'cause' we advocate is planning. Planning, to us, is a process and we are the activators, skilled at putting the process into action and getting results. We believe in the team approach to planning and we are experienced at facilitating groups in cooperative planning efforts. We are also futurists, convinced that an eye to the future is an essential planning strategy.

Ricciuti Balog & Partners Architects

Areas of Specialization

Ricciuti Balog & Partners Architects has provided comprehensive planning and design services to school districts in Ohio since 1962. Over 70 districts have engaged the firm for Facility Studies, Pre-Design, Bond Issues Promotion, Design and Construction Administration. Seventy-five percent of the firm's practice is in K-12 school building with a major emphasis on renovations, additions, and historic structures.

Personal Statement

The philosophy of the firm is deeply rooted in the "hands on" involvement of the four partners. We believe in partnering with school boards, community, administration and teachers in the design process. We take pride in our ability to produce designs that reflect the philosophy of each school district. We believe we provide value by *Listening* • *Thinking* • *and Doing*.

Schneider Gadbery Shay + Partners Architects

Areas of Specialization

Schneider Gadbery Shay + Partners Architects, since 1960, have specialized in educational facilities, resulting in work from preschool to university projects. This includes auditorium, multipurpose sports facility and special education designs. We have special expertise to serve as consultants for acoustics, seating/sight lines, theater lighting, sound and stage rigging systems.

Personal Statement

SGS+ Partners Architects' primary philosophy is to provide an educational environment, believing that children can expand their mental capacity for learning, imagination, social skills, creative spirit, friendship and aesthetics if the school atmosphere subtly expresses these characteristics. This is achieved by providing stimuli for creation in a warm, inviting, spatial, colorful edifice.
